

# Prosthetic Socks

KCN KCM KCW

Reinforced Hole or No Hole

The ALPS™ prosthetic sock is lightweight and soft, providing cushioning and comfort for a superior fit. Available in 1, 3, and 5 ply, the socks are manufactured with Coolmax® fibers to create a moisture management system which moves perspiration away from the body and through the fabric, where it can evaporate quickly. They accommodate volume fluctuation and can be worn alone or with ones prosthesis.

- Coolmax® fibers allow a cool, comfortable wear
- Keeps its shape over time; minimal stretch and will not mat down
- Socks with distal hole are only available with plastic reinforcement
- The plastic reinforced hole prevents fraying of the seam around the distal hole

## PRODUCT NO.

KCN-XX-XX

**Narrow Socks with reinforced hole, no hole**

KCM-XX-XX

**Medium Socks with reinforced hole, no hole**

KCW-XX-XX

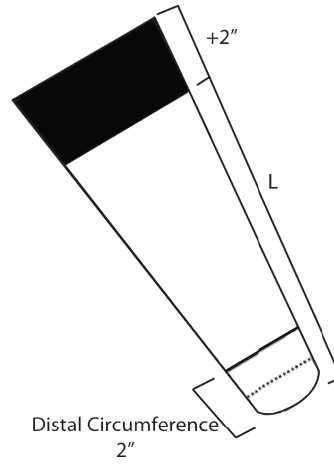

**Wide Socks with reinforced hole, no hole**

XX indicates size, see sizing chart and illustrations on reverse for details on sizing and differences between configurations.
