

EASYSLEEVE™ SUPERSTRETCH SLE

Gel Suction Suspension Sleeve - No Fabric

ALPS® EasySleeve™ Super Stretch provides comfort and durability while still providing strength through suction suspension. The SLE allows freedom of knee flexion and achieves secure suspension by sealing with the skin without restricting circulation. The separate fabric cover allows the EasyGel to move with the user, therefore reducing the forces against the patella and allowing the bulk of the sleeve to be displaced away from the popliteal area.

i Available in 6mm uniform thickness.

BEHIND THE GEL

EasyGel makes the sleeve comfortable and skin friendly

Contains antioxidants for use on sensitive/delicate skin

ADDITIONAL INFORMATION

Minimizes compression and irritation proximally

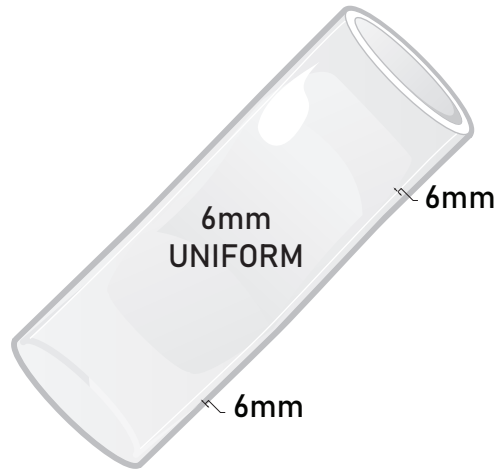

Longer lengths to accommodate more users

Recommended for waterproof prosthesis

CSLE is available with the EasySleeve Super Stretch as a separate fabric cover.

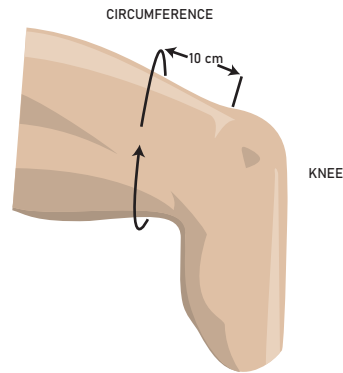

Recommended for K1-K2 activity levels.

CROSS SECTION DIAGRAM

HOW TO SIZE

Measurements taken 10cm above the patella

SIZING CHART

MEASURED SIZE (CM)	6MM UNIFORM	COVER SIZE
16-19 cm	SLE - 10
