

BIOSTEP®

Powered with patented NRG Technology®

A L P S

One foot, multiple possibilities.

ALPS BioStep® range is a breakthrough innovation among dynamic response feet. Active users can experience a high dynamic response combined with a fluid step and stability on all terrains.

ALPS Biostep® powered with patented NRG Technology® is based on a biomimetic design, enabling dynamic patients to perform a wide range of activities with just one single foot.

NRG Technology®

Inspired by Nature. Empowered by Technology.

NRG - Natural Reactive Gait - is a patented innovative dynamic response foot technology designed to replicate the natural movement of the calf and shin muscles.

Fluid step with a continuous dynamic response
